LOST
VILLAGE

A close-up, slightly blurred photograph of a person with dark, curly hair, wearing a white shirt with small dark polka dots. They are raising their right arm, with their hand near their head. The background is a soft-focus crowd of people, suggesting a social gathering or event. The lighting is warm and ambient.

Where
the
world

will
never
find us

Reality, recalibrated...

It's been a little while, old friend.
And some stuff has happened, that's for sure.

As the digital world becomes an ever-spiralling merry-go-round of madness, the last 12 months have taught us that the value of humanity, and being together, has never felt more resounding.

Community. A popular, some might say, overused word; but a community that talks, dances, eats together and shares a collective experience, all whilst surrounded by nature and creativity... Has that ever felt more important than it does today?

We are all different, all imperfect, all people with our own story on our own journey. We cannot let a modern lust for a frictionless existence make us impatient or intolerant. Life is not about finding people who agree with every thought in your head, but finding people who will listen, talk and be open-minded to all possibilities and ideas.

And in that middle ground, the bit where we all come together, with compassion, excitement and a love for one another; that's where the magic lives, where new ideas are formed and where lifelong friendships explode into existence.

If you can hug it, kiss it and dance with it; it's probably real.

Thank you for trusting us, we'll never take that for granted.

Village life

Some places ask you to behave.
This one asks you to belong. Look
out for each other, the way good
neighbours do; let the unusual be
celebrated, not just tolerated. For
four days, Lost Village is home...

HOUSE RULES

Our rules form the bedrock of a safe, shared and *respectful* experience.

A community and culture we can all be proud of. Please treat Lost Village as if it were your own back garden and everyone in it, as if they were *your family.*

SAFETY & SUPPORT

We have welfare areas across the Village, as well as our Village Guardians team led by UN Women. If you feel uneasy, worried or just need to catch your breath, please head to the Village Guardians Hub and you'll be welcomed with open arms.

We have a zero tolerance approach to intimidating behaviour, be it physical or verbal. If you see something you think is wrong, please report it via the 'message us' button on the app or SMS/Whatsapp us. Both come direct to us in real-time.

Leave no

Trace

We put a huge amount of resource into our sustainability projects so please please please;

Leave the campsite as you found it by taking your equipment home and disposing of your waste in the correct bin bags and waste pens.

PLEASE USE THE CAMPSITE WASTE PENS

CLEAR BAGS – GENERAL WASTE

Includes food waste, baby wipes, tissues, wrappers, and any non-recyclable items.

GREEN BAGS – RECYCLING

Includes cans, tins, plastic bottles, takeaway containers, clean cardboard, and empty plastic pots.

CAMPING EQUIPMENT DONATION

The best option is to take your tent home. If your camping equipment is broken and you wish to dispose of it, please visit one of the camping equipment donation points located at selected waste pens across the campsite. These points accept unwanted items such as tents, chairs, airbeds, mats, and sleeping bags. Wherever possible, items will be repurposed, reused, or donated to charitable causes.

EQUALITY

At Lost Village we embrace our differences, regardless of gender, ethnicity or sexuality. A place to talk and learn from one another. It's this warm and compassionate mindset that makes the LV community special.

CREATIVE EXPRESSION

Wear the version of yourself everyday that life doesn't always make room for. We build this strange and *wonderful world* with the hope that it makes you feel inspired and excited to be exactly who you want to be.

Your

has
come

Lost Village is a *daytime* focused experience with activities such as talks, workshops and wellness opening from 8:30am, then comedy and music commencing at midday.

Headline artists all play before 11pm, with music generally finishing by 1/2am. We have smaller bars and spaces that stay open until 3am.

This approach means music spaces are full of energy from early in the day, helping us to support the discovery of incredible emerging artists.

Better

BETTER FOR THE PLANET

We conduct an annual carbon audit to calculate our output — offsetting our total known emissions each year, aiming for carbon neutrality. Whilst we have undertaken many reforestation projects around the world, the long-term aim is to constantly look for ways to reduce our impact.

OUR ACTIONS

This year, we'll once again be utilising plug-in hybrid Defenders to replace various festival vehicles, reducing our use of non-renewable energy. In 2024 we installed an EV charging system into the site permanently too. This will have a notable effect on our carbon emissions and will be reported via our yearly carbon audit — we will then rebalance any carbon via our various reforestation and conservation projects.

for the planet

REUSABLE CUPS

Our durable cups are part of a *circular system* collected, cleaned, and reused across events. The more they're used, the greener the impact.

1.

BUY YOUR FIRST DRINK

Buy your first drink – a one-off charge of £2.00 will be applied. You won't need to pay this again!

2.

RETURN YOUR CUP TO THE BAR

Next time you get a drink, take your cup to the bar and it'll be swapped for a clean one or a token at no further cost.

3.

PLEASE DON'T TAKE YOUR CUPS HOME!

Any cup that exits the circular system is a step in the wrong direction. If you're finished with your cup PLEASE find a purple bin and place it in there, if we don't return it not only are we adding more plastic into the world but we have to replace at huge cost.

THE OUTPOST

DEFENDER

Known as The Outpost, this forgotten stronghold is one of the original corners of The Old Zoo. Decommissioned for public use, it later became a place for the zoo's founding team to propose, plan and prepare for their worldly expeditions... And a home for their beloved Defender.

Since its reopening, The Outpost has hosted an eclectic cast of sonic explorers amongst its brutalist concrete alcoves. This year, it goes further still; secret artists, unannounced b2b's, and lineup that exceeds all expectations.

Some of those artists may have already revealed themselves, but perhaps not their coordinates. Others, and their collaborators, simply remain a mystery. There's only one way to find out...

Defender's plug-in hybrids return as the engine behind the scenes, replacing much of our operational fleet with hybrid vehicles and cutting our reliance on non-renewable energy year on year.

Boutique Sanctuary guests will also find them at work from the moment they arrive too, transferring guests from the new car park to the Boutique Sanctuary entrance.

TAKE YOUR TENT HOME

Abandoned tents are by far the biggest contributor to plastic waste at festivals. The average tent equates to 250 plastic pint cups or nearly 9,000 straws. As we're sure you'll agree, this is a trend we cannot allow at Lost Village — especially as most abandoned tents end up in landfill.

GREENER TRAVEL

Lost Village partners with National Express to offer nationwide coach travel. A single full coach can remove up to 50 cars from the road — that's one mile of traffic congestion eliminated.

RECYCLING

We operate a three-bin system for recycling, compostable waste (e.g. food), and general waste. Please help us by using the correct bins.

All campers will receive recycling bags on entry to help sort and manage waste responsibly. Our campsite volunteers will be on hand to offer support, share advice, and provide extra bin bags to help keep the campsite tidy.

We have donation points across the campsite for unwanted camping equipment such as tents, airbeds and sleeping bags. Where possible, items will be repurposed, reused or donated to charitable causes.

CARBON REBALANCE

In partnership with A Greener Future (AGF) we undertake an annual independent carbon audit. To date we have committed to rebalancing our total known CO2 emissions, following each festival, utilising our reforestation partners Tree Nation. We have offset our total known emissions by planting 34,272 trees, capturing 5,391 tonnes of CO2. Additionally, we have successfully reduced our carbon footprint for four consecutive years.

PRE-PITCHED CAMPING

We've adopted a closed-loop approach by offering sustainable pre-pitched camping, utilising reused tents. We also offer click-and-collect reconditioned camping equipment to reduce single use purchases.

WATER

Free water points are available throughout the Village and campsite. In addition, you can purchase canned Marlish spring water from our bars. Their aluminium cans are infinitely recyclable and their water is sustainably sourced from the hills of Northumberland.

CHAPTER II

Discover

Each stage is a world of its own—some loud and wild, others slow and spellbinding.

Wander with open ears and a curious heart. Whether it's a sunrise set or a midnight moment that finds you, this is where music becomes memory.

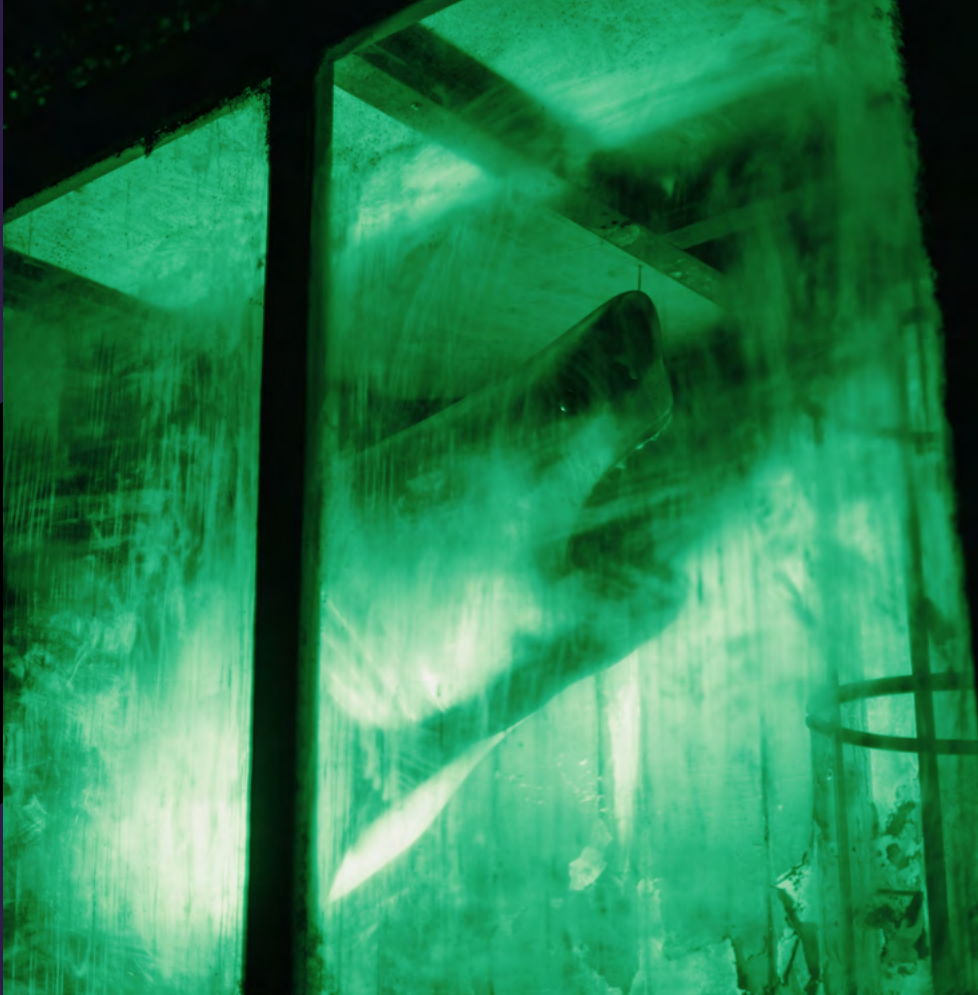

Airbase

Previously home to the now defunct Horizon Airways, this once thriving commercial airport was decommissioned almost 30 years ago. It is believed that the Airbase is occasionally used for private aviation; however, the whereabouts of the owner has been the source of speculation for many years.

The Old Zoo

This once vibrant zoo was home to a myriad of animals from around the world. Whilst the larger mammals escaped during a fire in the 1990s, it's believed a handful of the zoo's original inhabitants still linger in the surrounding woods... Listen closely, and you might hear them.

By day, Villagers gather on the banks of the lake, exchanging stories with kindred spirits; recharging their souls and hatching plans for the night ahead...

By night, the lake comes alive; a theatre of fire and water... Flames will dance whilst prismatic mirages rise from the deep. Let your senses wash away...

Powerplay Records is open for business!... Browse all the latest cassettes, CDs and vinyl releases, including the hot new album from rising star Kate Bush!

Say hello to Johnnie Walker; his fist-pumping cocktails have been a Village fixture ever since he joined, and they're still topping the charts.

Jupiter Park

Jupiter Park opened its doors in the 1970s; a time when a ride on the Ghost Train would reduce most to tears and the allure of the Sky Rider would draw steel-stomached thrill seekers from miles around. But as time moved on and visitors dwindled, the park's once luminous metallics began to grow dull and memories of the past slowly faded away.

Ride the **SMIRNOFF SHAKER**

for a kaleidoscope
of flavours.

The Greenhouse

Located in the heart of the forest, this vast and verdant overgrown greenhouse is home to some of the finest cocktails you could hope to uncover.

Hay Barn

By day it's the perfect meeting place (with Estrella Damm & JUBEL on draught), by night it's a lawless jukebox of unashamed tomfoolery. Take your pick!

The Orangery

Some pairings just make sense. Aperol and The Orangery are back together again, and it's every bit the perfect match you remember. Re-connect amongst its beautiful confines, sipping exceptional spritzes and swapping stories with newfound friends.

Butrial Ground

The sacred heart of Lost Village, where lights shine bright and the *souls of a thousand kindred spirits* come together.

NOEL'S PAWN COCKTAIL

BUY • SELL • TRADE

Noel's Pawn Cocktail

Business is booming at Noel's Pawn Cocktail; so much so the Quench family have sought out new premises; bigger, better and more questionable than ever before. Bring your wares, gift your gab, and try to cut a deal with the shrewdest merchants this side of Stevenage. Rumour has it that they have more than a handful of new rackets in progress, whether you've got the steel to handle them is another question. No refunds, no receipts.

Noel is currently accepting trade-ins on only the most intriguing items, ideally with a compelling backstory. If you're in possession of a Blue Peter badge with a suspicious past, a Smash Hits annual signed by Rick Astley, a framed Pat Sharp photo or a cassette labelled "Summer '89 – Do Not Erase", this could be the moment you've been waiting for!

Junkyard

TROPICAL HOUSE

This crumbling Victorian greenhouse has quietly watched the lives of villagers for over a century. Its history is shrouded in lore, with some claiming to have seen a figure peering from its doorway during the late summer nights.

CLUB LORENZO

Opening its doors in 1982, Lorenzo Vitelli had his sights set on pan-European portfolio of highclass hangouts, as he rode a wave of Italo disco and late night romance. Glass in hand, Marlboro in mouth; Lorenzo's unshakable thirst for good times, pastel shirts and creative accounting meant his establishments have outlasted many of his peers.

The Moondial

The remains of this once grand house have largely been overtaken by the surrounding forest, after heirs to the estate disappeared sometime in the mid 1950's. Known locally as Moondial House, due to the unique lunar timepiece that is rumoured to sit somewhere amongst its grounds, this beautiful corner of the forest is often overtaken by wild flowers and pink blossom.

The Boatyard

A short walk from the lake, the Boatyard oversees the repatriation of lost vessels, broken boats, and wayward fishing folk.

CHAPTER V

Impeccable Liquids

Every pour here means something. Whether it's smoked, stirred or sparkling, the drinks are as much a part of the alchemy as the music. Raise a glass, hydrate with heart, and let the impeccable liquids flow.

CASAMIGOS *Tequila*

Tequila and Lost Village have always been intimate bedfellows, and for a second year running, Casamigos is back to prove it. A premium, handcrafted, 100% blue weber agave tequila that's spent over a decade bringing people together.

A crisp, golden Spanish lager built for long days and longer nights; Estrella Damm brings a taste of the Mediterranean straight to the forest. Find it on draught at the Hay Barn, Burial Ground and near The Old Zoo, plus canned options across the Village.

JUBEL

Your favourite festival beer is back, and it's become a proper Village staple; there's nothing quite like a cold Jubel in hand when the sun's out. Find it at Club Lorenzo, alongside some of the best sets you could wish for. Also available across the village.

APEROL[®] SPRITZ

Aperol and The Orangery are back together again; still tangled in green, still glowing orange, still the spot everyone finds their way to. This iconic spritz is best enjoyed in good company. Expect a plethora of perfectly mixed, ice cold cocktails to choose from.

Smirnoff's back for another year,
with Jupiter Park its natural home.
Let the Smirnoff Shaker unleash
a kaleidoscope of flavours!
You'll also find them across the
forest, with a carnival of tastes
waiting to be discovered.

JOHNNIE WALKER

Striding into the forest, Johnnie Walker's exceptional Scotch whisky will underpin a mouth-watering selection of zesty, fruity, smoky and floral cocktails, exclusively served in the record store.

Taste diggers get ready!

Tucked away at the water's edge, The Lakehouse remains one of the most beloved spots in the Village. A serene hideaway where lost souls slow down, gather their thoughts and swap stories over glasses of crisp whites, juicy reds and bold, golden orange wines.

Joining us this year is Shrine to the Vine, the wine shop from the founders of Noble Rot. They only pour wines they'd be excited to drink themselves, thoughtfully farmed, characterful and about as far from industrial plonk as you can get. Expect under-the-radar natural cuvées alongside mature classics from Burgundy, Bordeaux, Provence and beyond.

*Wine tastings from 12:30pm to 5:30pm every day.
Book at The Lakehouse, places are limited.*
